

Welcome to ACM:CTC!

2021-22 Introduction

Meet the Officers

President - Joshua Obogbaimhe

Vice-President - Philip Guerrero

Treasurer - Kyoshi Noda

Secretary - Sindhu Padaga

SGA Representative - Carlos Duque-Rivera

Staff Advisor - Dr. Samir Hamada

Who we are

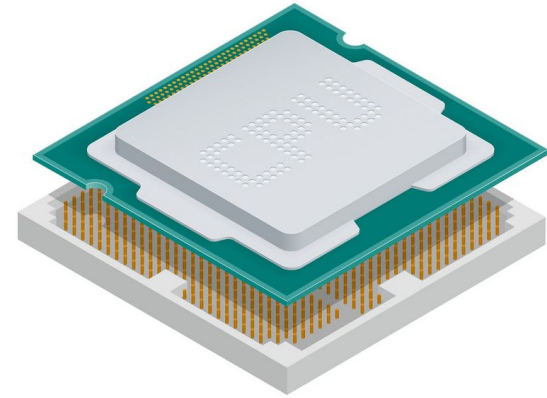

- We are an academic club at FSC
- We are a club part of the SGA
- We are a newly founded ACM student chapter
- We are open to anyone interested in tech

Our Mission

- Allow students to gain experience/exposure to new technologies
- Show guidance/resources amongst each other for us as a whole to gain more knowledge
- Create an environment where students with similar tech interest can make new friends/connections

Meetings

- Every Thursday from 10:30am to 12:00pm
- Location TBA
- Socialize and study
- Collaborate on club projects
- Coding interview prep

Club Projects

- Contribute to open source projects!
- Pitch ideas for club projects
- Members have suggested things like a server discord bot or a robotic arm! The possibilities are endless.
- Population Monitoring project is one of the projects we've worked on, led by Ian Matlak

Competitions

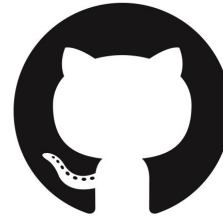

- No prior experience needed!
- **Hackathons (not that kind of hacking 😂)**
 - SBU Hacks
 - Hack CEWIT Hackathon
 - JP Morgan Code for Good
 - RAMHack
 - Much more!
- Master the Mainframe (MTM) is a hands on competition with multiple technologies
- Doing these competitions will allow people to build great skills in the world of tech

Networking

- Hear from alumni and career officials about their experiences in the tech industry
- Learn tips and tricks for writing the perfect resume/cover letter
- Meet with a wide variety of companies at the annual spring tech fair
- Contribute to the club's open source projects

Technical Interview Prep

- Every last meeting of the month
- Sharpen your coding skills in preparation for technical interviews and assessments
- Explore the world of data structures and algorithms
- Mock interviews

Codility-

HackerRank

LeetCode

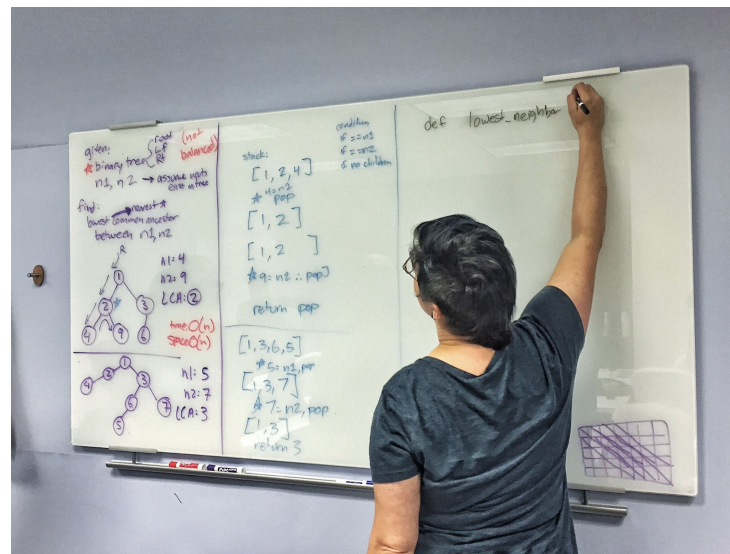

Workshops

- Gain knowledge about the latest technologies
- **Examples**
 - Web Dev Series - Julian Hecker
 - 3D Printing Workshop - Dr. Grace Zhao
 - Spring Boot Workshop - Geraldine Turcios
- **Upcoming**
 - Github Workshop
 - LinkedIn/Resume Workshop
 - Flask Workshop
 - Officer Workshop
- Students are encouraged to lead

-

Supporting Women in Computing Club

- Supporting Women in Computing Club's goal is to make the community aware of women, minorities and student talent in the computing industry
- Meetings every Tuesday during club hour
- Great networking events for individuals interested in tech
- RAMCentral: <https://farmingdale.campuslabs.com/engage/organization/swic>

Tentative Schedule

- **9/15** - Virtual Involvement Fair
- **9/21** - In-Person Involvement Fair
- **9/23** - First General Meeting
- **10/1** - GitHub Workshop pt. 1
- **10/8** - GitHub Workshop pt. 2
- **10/21** - AWS SDE Jeffrey J. Haywood - Tech Talk
